

Challenge Name : Dark Night

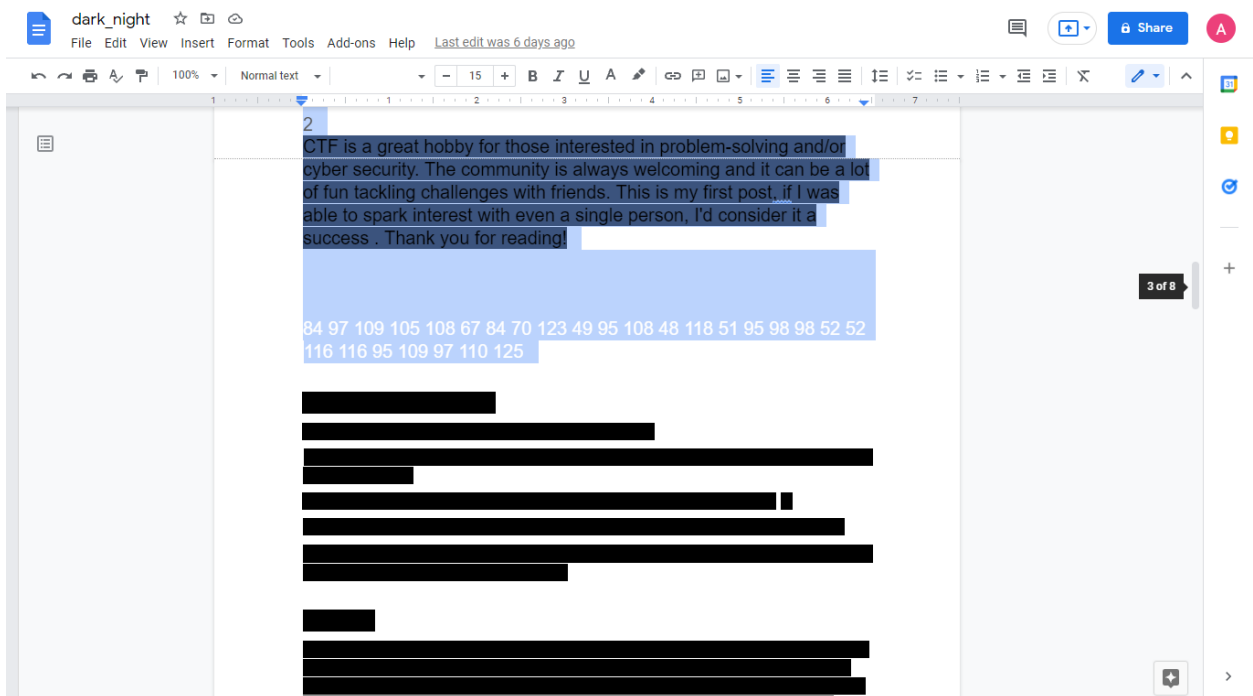

Dark_night.pdf

Step 1 : Convert Pdf file into Document file : Upload pdf in Google Drive then open document format

Step 2 : Mark the hidden text. you will see ASCII code

Step 3 : Convert ASCII into text

The screenshot displays a web-based 'Hex To Text' conversion tool. At the top, there is a banner for 'McAfee Total Protection' with a 'Shop now' button. Below the banner, the tool's interface includes two dropdown menus: 'ASCII' and 'Text'. The input field contains a list of ASCII values: 84 97 109 105 108 67 84 70 123 49 95 108 48 118 51 95 98 98 52 52 116 116 95 109 97 110 125. The output field displays the converted text: 'TamilCTF{1_10v3_bb44tt_man}'. On the right side, a 'Relevant Tools' sidebar lists several conversion utilities: Binary To Text, Binary To Hex, Binary To Ascii, Decimal To Hex, Hex To Binary, and Ascii To Text. At the bottom left, a small status bar indicates 'Waiting for googleads.g.doubleclick.net...'.

Step 4 : Then you can see a Flag.
Yeah :) , it's a very Easy challenge
